## Information about the service

### What is the service

BroadSignal's Fixed Line service uses **nbn™** infrastructure like Hybrid Fibre Cable(HFC), Fixed Wireless or Fibre to the Node(FTTN), to deliver the telephone to your business.

### Where is it available?

The service is only available within a **nbn™** serviced area. To find out the latest details on **nbn™** availability, please visit our address checker at [www.broadsignal.com.au](http://www.broadsignal.com.au)

### What do I need to access the service?

You will need:

- A VOIP adaptor or Modem which we can supply at a cost of \$169.
- Most handsets will plug into your voice only service, but we cannot guarantee that all handsets will work.

Important note for **FTTN** customers:

- Your existing copper phone line will be taken over by the new **nbn™** connection. This means that you need to transfer to a VOIP Phone service (internet based phone) or you will lose your current landline phone number.
- You may find that all the phone sockets in your business are disabled.
- If you would like to have two phone numbers that can also be arranged as a VOIP service

### Minimum term of the service:

This service is either month-to-month with no fixed term, or 12 months contract.

### What is included?

This service includes call waiting and Voicemail.

### Qualifications

Please note that this service may be suspended and/or cancelled if:

- You fail to pay your bill within 30 days
- You breach our "fair use" policy available at [www.broadsignal.com.au/terms](http://www.broadsignal.com.au/terms)

### Set Up Fee:

- \$149 for a monthly term
- \$49 for a 12 month term.

### Wi Fi Modem Router fees

BroadSignal can provide an **nbn™** approved modem router if you do not have one. We use the new NetComm NF18ACV modem at a cost of \$169.

### Other possible costs

**Exit fee:** Pre Term Cancellation Fee is \$132 for the 12 month contract.
